EPSON 104

1. Based on Epson calculations, the average cost per page saving and the average number of inkjet cartridges required to print the same number of pages as the Epson EcoTank "102" and "104" ink bottles. Comparison between the average yield (A4 prints of ISO/IEC 24712 test pattern) of EcoTank "102" and "104" ink bottle series and the genuine consumables (IDC, Hardcopy Peripherals Consumables Tracker, 2021 shipments, published Q1 2022) used within the 30 best-selling consumer A4 inkjet cartridge printers in France, Germany, Italy, Spain and UK (IDC, Quarterly Hardcopy Peripherals Tracker, 2021 shipments, published Q2 2022). Cost per page calculated by dividing the relevant bottle/cartridge sales revenue and the total yield by the unit sales.
2. Based on print volume of 100 pages per month and the lowest yield produced from the first set of inks.
3. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 or 29103. Quoted yields are NOT based on ISO/IEC 24711 or 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set will be lower.
4. Mobile printing solutions require a wireless and/or an Internet connection to the printer. For a list of Epson Connect enabled printers, compatible devices, apps and ways to connect, visit www.epson.eu/connect
5. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit
