Compact USB 3.1 Gen1 (USB 3.0) Card Reader with a Type-C and Type-A connector

Transfer your files to or from memory cards

DESCRIPTION

Transfer your files and pictures fast from memory cards with the plug and play EW1075 USB 3.1 Gen1 (USB 3.0) Card Reader. Take the card reader easily along thanks to its ultra-compact design. Reach transfer speeds up to 5Gbit/s with SuperSpeed USB 3.1 Gen1 (USB 3.0). The EW1075 can be used on laptops and computers with a Type-C or Type-A USB port.

Easy to take along

Due to its small size, the Ewent EW1075 USB 3.1 Gen1 (USB 3.0) card reader is easy to take along. The EW1075 has built-in USB connectors: Type-C and Type-A. So you don't need to use any cables.

Support for the most common used memory cards

The most common used memory cards are supported by the Ewent USB 3.1 Gen1 (USB 3.0) Card Reader: SD, SDHC and the latest generation of SDXC cards. The EW1072 supports also Micro SD and T-FLASH cards.

SuperSpeed USB 3.1 Gen1 (USB 3.0)

The Ewent EW1075 Card Reader complies with the USB 3.0 standard. This standard enables a data transfer speed up to 5Gbit/s.
